

## Fixed Price Solutions

# Energy Price Certainty With Simplicity

We designed Fixed Price Solutions for customers who want stability and simplicity. You pay one fixed price per kilowatt (kWh) for all of your electricity usage for the term of your choice. One-time decision, one price, one simple bill.

Based on your historical and forecasted consumption, we determine how much power to purchase in advance to be able to provide a fixed price for you. We manage the risk so you can relax.

### Benefits:

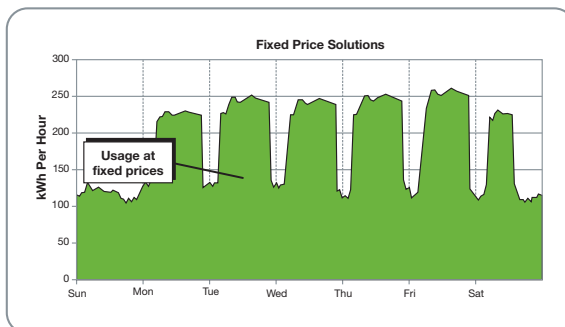

- **Price Certainty**—One fixed price for all usage.
- **Simplicity**—Make a one-time decision and get an easy-to-understand bill.
- **Easier Budget Management**—Manage to your budget because the price is fixed in advance for all usage.
- **Usage Variance Protection**—Keep a fixed price even when your usage varies from events beyond your control, such as a long summer heat wave.

### Options:

- Ancillaries, capacity, and transmission can be fixed or passed through, depending on the wholesale market. If fixed, they are included in your contract price.
- Purchase renewable energy certificates to green a percentage of your usage.

Market prices are volatile; they can change by a lot, quickly. With Fixed Price Solutions, your price is locked in to protect you from market price changes.

With Fixed Price Solutions, your fixed price covers all your usage so you are not exposed to market price changes.
