Reduce Your Price Volatility.

This advanced solution, Minimize Volatile Pricing (MVPe), is a structured, systematic plan that attempts to reduce exposure to electricity price volatility through an automatic time diversifying lock-in program.

MVPe Program Benefits:

Beyond Basic Cost Averaging

Target purchases made on your behalf are based on an advanced mathematical methodology designed to ensure that higher percentages of load are locked-in when prices are lower in comparison to historical prices. Basic cost averaging approaches, instead, lock-in a fixed percentage of load at regular intervals regardless of market conditions.

Reduced Exposure to Transaction Risk

Through systematic purchases over multiple time periods, you mitigate the risk that your business could have faced had you taken a single position and the market retreated.

Eliminate Guesswork in Purchasing Decisions

This systematic approach to locking-in electricity frees you from trying to time the highs and lows of the market.

Flexibility

You have the ability to define the percentage of load and the date the load is locked-in through the program.

Ongoing Reporting

Easy to use and understand reports are available monthly. A Cost Report provides costs month over month and a Net Open Position Report illustrates your open vs. locked positions.

NOTE: For illustrative purposes only; graphs are not based on actual, past, or predicted future market prices.

Constellation—Making Energy Work For You.

Constellation, an Exelon company, is a leading competitive supplier of power, natural gas, renewable energy and energy management products and services for homes and businesses across the continental US. We provide integrated energy solutions that help customers strategically buy, manage and use their energy. Our customers, including two-thirds of the Fortune 100, rely on our commitment to innovation, reliability, transparency and service. That is the kind of value you and your communities can expect from Constellation.

Serving Competitive Energy Markets Throughout The US

Our offices are strategically located and staffed with energy experts to serve customers in all competitive energy markets in the US.

Solar solutions, energy efficiency projects and renewable energy are also available across the continental US

Products to Help You Buy, Manage and Use Your Energy:

Electric Power Supply

- Fixed Price
- Flexible Index Solutions
- Block Solutions
- MVPe
- i2i

Natural Gas Supply

- Managed Portfolio Services (MPS)
- Minimized Volatile Pricing (MVP)
- Managed Procurement Fund (MPF)

Strategic Load Response

- Automated Load Control
- Demand Response
- Ancillary Services
- Economic Programs • Peak Load Management

Renewable Energy

- Renewable Energy Certificates
- · Geothermal Heat Pump Systems
- Biomass Plants

Online Energy Management

- EnerPro (Natural Gas)
- Account Services (Electric Power)
- VirtuWatt (Load Response)

Solutions

- · Solar Power Purchase Agreements
- On-Site Solar Installations
- Solar Leasing

Energy Efficiency Upgrades

- Lighting
- Building Envelope
- Building Management Systems
- HVAC
- Water Conservation Measures

Central Plant Outsourcing
