

CONSTELLATION NEWENERGY GAS

Constellation NewEnergy Gas (CNE Gas) is a full-service provider of natural gas supply and transportation-related services to retail customers throughout the U.S., including commercial, industrial, municipal and power generation facilities. We currently serve more than 14,000 customer facilities.

CNE Gas is a wholly owned subsidiary of Constellation Energy, a FORTUNE 500 company with subsidiaries that generate, sell and deliver energy and other energy-related services and products to customers nationwide. By applying our natural gas industry expertise to innovative gas supply, transportation, procurement and risk management offerings, we have set new industry standards and established best-practices for a fully outsourced natural gas manager.

INDUSTRY LEADER

- Ability to analyze information required to make intelligent energy management decisions
- Provide reliable and economical supply of natural gas from the well head to the burner tip
- Understand today's volatile gas market and the need to eliminate unnecessary costs
- Ability to work in concert with Constellation NewEnergy Power, the country's leading competitive electricity supplier, making it possible to meet virtually all of our customers' energy requirements

UNPARALLELED SERVICE

- Expertise on all major natural gas pipelines
- Complete transportation arrangements: firm and interruptible service, storage, and balancing
- Nomination and scheduling services
- Flexible contract terms, including multiple pricing and contract length options

RISK MANAGEMENT

- Unique and proven programs
- Customized portfolio management
- Fixed price solutions, providing price certainty

INFORMED ENERGY DECISIONS

CNE Gas customers have access to EnerPro, our comprehensive online energy management tool that provides information about the energy market to assist in the making of energy investment decisions. EnerPro allows customers to view invoices and reports, provides access to general market intelligence data, and provides essential information at your fingertips. EnerPro users also receive important information about regulatory updates and industry news.
