

Frequently Asked Questions

- **What is the length of the internship program?**
 - Our program is a 10-week effort that begins in June and ends in August annually. Several interns are extended into the academic year. In addition, several co-op assignments range throughout the year.
- **Where are internship opportunities available? (roles/areas of company)**
 - BGE, CPG, CNEG, Corporate, CEPS and BGE Home
 - Engineering, IT, Finance, Accounting, Supply Chain and various other corporate staff groups
- **Are the internships paid? If so, what is the compensation?**
 - All internships at Constellation Energy are paid. Compensation is based on the intern's academic level and discipline.
- **Do you provide housing?**
 - While we do not provide housing for our interns, we have developed a partnership with internhousing.com, a resource designed to help students find housing during their internships.
- **When can I apply for an internship position?**
 - The active recruiting period for internships is January – March each year. You can post your resume online as early as November. Applicants will be contacted if they have been selected to participate in the interview phase.
- **How do I apply for an internship or co-op position?**
 - Before applying, check with your institution's Career Center to determine if we have posted any positions
