

**“Advanced medicine calls for reliable energy,
and Constellation is our preferred provider.”**

THOMAS R. MULLEN
PRESIDENT AND CEO
MERCY HEALTH SERVICES

Mercy Medical Center has stood firm in its commitment to healthcare excellence for 125 years. At a time when the industry has been challenged to contain costs without sacrificing patient care, Mercy's service to the Baltimore community has grown to include a nationally renowned women's center, senior residences, a long-term care facility and numerous centers of medical excellence. Providing Mercy with power—and the power to contain energy costs—is Constellation NewEnergy. A reliable source of electricity and energy management expertise, Constellation cares for Mercy's day-to-day energy needs, as well as its emergency demands for power. Now that's a healthy partnership.
