

NewMix WindSM

Fulfill Environmental Goals with Renewable Energy.

If you're looking to fulfill environmental goals and commitments, promote your green efforts, or participate in voluntary renewable programs, you should consider purchasing Constellation Green-e Energy Certified Renewable Energy Certificates (RECs).

What Exactly am I Purchasing?

- Green-e Energy* Certified RECs from wind generating facilities located within the continental United States
- Support from Constellation's green team and marketing experts to help effectively demonstrate your commitment to the environment
- Membership in the Constellation Green Community, which allows access to Constellation's Energy4Business blog and numerous articles on environmental business practices and trends

Why Should I Buy RECs Instead of Choosing a Different Renewable Energy Solution?

- Purchasing RECs is quick and easy while showing your support for the operation and development of renewable power plants
- RECs allow you to make environmental claims about a reduction in greenhouse gas emissions associated with your electricity use
- It allows you to demonstrate your commitment to the environment to your customers, employees and other stakeholders

How Do I Get Started and What are My Options?

- Choose to have RECs match a percentage of your electricity use, and have one bill and one point of contact for electricity and environmental needs
- Choose to have a fixed amount of RECs supplied to you on a separate bill, unrelated to your electricity usage

*Green-e Energy certifies that NewMix Wind meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, call 888-63-GREEN or log on to www.green-e.org.

- Flexible Index Solutions
- Block Solutions
- MVPe
- i2i

Natural Gas Supply

- Managed Portfolio Services (MPS)
- Minimized Volatile Pricing (MVP)
- Managed Procurement Fund (MPF)

Strategic Load Response

- Automated Load Control
- Demand Response
- Ancillary Services
- Economic Programs
- Peak Load Management

Renewable Energy

- Renewable Energy Certificates
- Geothermal Heat Pump Systems
- Biomass Plants

Online Energy Management

- EnerPro (Natural Gas)
- My Account BETA (Electric Power)
- VirtuWatt (Load Response)

Solar Solutions

- Solar Power Purchase Agreements
- On-Site Solar Installations
- Solar Leasing

Energy Efficiency Upgrades

- Lighting
- Building Envelope
- Building Management Systems
- HVAC
- Water Conservation Measures

Central Plant Outsourcing

- Chilled Water Systems
- Boiler Plants
- Heat Recovery Systems

Building Solutions

- Mechanical Services
- Maintenance Contracts

Easy Online Energy Management:

My Account BETA
