

Energy efficiency solutions with no upfront capital

For most businesses, energy is one of the top five expenses affecting bottom lines. It can be challenging to effectively manage usage, identify the right efficiency upgrades, and find the best payment structure for executing projects in a way that will help your business achieve its energy goals. That's why Constellation created Efficiency Made Easy (EME)—a solution that can play an integral role in achieving your strategic financial and sustainability goals.

Our team of energy experts and channel partners will work with you to identify and implement the latest efficiency and technology measures. This unique award-winning solution provides an opportunity to pay for these conservation measures—with no upfront capital. You can realize cost savings through a reduction in consumption and an improved load profile, which could positively impact future energy costs and your sustainability goals.

Comprehensive Energy Efficiency Solutions

Modernize Facilities with No Upfront Capital

Implement energy efficiency upgrades without any initial investment to preserve your capital budget while upgrading your infrastructure.

Cost Savings Through Reduced Energy Consumption and Maintenance

Load profile improvements become effective immediately upon installation of efficiency measures.

Reduce Your Carbon Footprint

By optimizing energy usage, you can help improve the environment, health, and safety of your facility while contributing to a cleaner, carbon-free energy future.
